Understanding the Parts of Medicare

What's Medicare?

At first glance, Medicare may seem like a lot to figure out, especially since you keep your Postal Service Health Benefits (PSHB) Program coverage after you retire. But think of it this way—your PSHB plan has deductibles and coinsurance, which you pay out of pocket. Original Medicare does too.

With Aetna Medicare Advantage for RCBP, your coinsurance and deductibles will be lowered to **\$0** for most medical expenses. When you're enrolled in Original Medicare, that's how these plans work.

So, let's close the loop on Medicare with a brief description of its parts. Keep in mind, this does not consider your PSHB plan.

MEDICARE PART A = Hospital insurance

Covers most in-patient medical expenses like hospital stays and home health care. Generally, no premium is required. Inpatient hospital deductible applies before any hospitalization costs are covered.

MEDICARE PART B = Medical insurance

Covers doctor visits, durable medical equipment, outpatient procedures and lab services. Most people pay a monthly premium and a deductible before Medicare covers services. After your deductible is met, you typically pay 20 percent of the Medicare-approved amount for most doctor services. There is a separate monthly premium for Medicare Part B.

ORIGINAL MEDICARE = Part A + Part B

Together, both parts provide coverage in and out of the hospital.

MEDICARE PART C = Medicare Advantage

A Medicare-approved plan offered by private insurance companies as an alternative to Original Medicare. It may offer added benefits at a lower cost than Original Medicare. You must sign up for Part A and Part B before enrolling in Medicare Part C.

MEDICARE PART D = Prescription Drug Plan

Offered by private insurance companies to help cover prescription drug costs. It is offered in two different ways - as a standalone prescription drug plan also known as a PDP or as a part of Medicare Advantage plan which is called an MAPD. When you're retired with Medicare Parts A and B, your PSHB health plan will include a Part D prescription drug plan unless you enroll in a PSHB Medicare Advantage plan with Part D. The Part D plans under the PSHB Program have lower copays to help you save. It is now available under our RCBP PSHB plan.

Aetna Medicare Advantage for RCBP can help lower your medical and prescription out-of-pocket costs and reduce your Part B premium.

Postal service retirees are now required in most cases to take Medicare Parts B and D. So why should you consider enrolling in Aetna Medicare Advantage for RCBP?

Most plans offered through PSHB Program require cost sharing. Cost sharing means you might pay deductibles, coinsurance and copays when you visit health care providers. And we all know this can add up.

So how can you save money?

With Medicare Parts A and B, your PSHB plan may lower your costs by waiving certain deductibles or coinsurance. Additionally, enrolling in the Aetna Medicare Advantage Plan for RCBP allows you to receive a Part B premium reduction of **\$900 (\$75/month)** per person, per year.

Get a complete Medicare Advantage plan without having to suspend your PSHB coverage.

Enrolling in the Aetna Medicare Advantage for RCBP offers more thorough coverage and programs to help you reach your health goals.

WHAT DO I NEED TO KNOW ABOUT MEDICARE ENROLLMENT?

There are several specific periods that allow you to enroll in Original Medicare. These periods consider different circumstances. The first two are without penalty. The third would be considered late-enrollment which could increase your costs significantly.

1. Initial Enrollment Period (IEP)

For most people, the Medicare enrollment period opens three months before the month you turn 65 and ends three months after your birthday month. You can apply online at [SocialSecurity.gov](https://www.SocialSecurity.gov) or enroll at your local Social Security office.

2. Special Enrollment Period (SEP)

After your IEP ends, you may still sign up for Medicare if you meet the criteria for a Special Enrollment Period.

If you are still working and you're covered under a group health plan (usually through your employer), you have an 8-month SEP to sign up. This SEP begins with whichever comes first:

- **The month after your employment ends**
- **The month after the group health plan insurance ends**

Usually, you don't pay a late enrollment penalty if you sign up during a SEP.

3. General Enrollment Period (GEP)

Between January 1 and March 31, each year, Original Medicare offers a GEP.

You can sign up during the GEP any year if both are true:

- **You didn't sign up when you were first eligible (during your IEP)**
- **You aren't eligible for a SEP**

Medicare Part B late enrollment penalty

If you don't sign up for Part B when you're first eligible, your monthly premium may go up 10 percent for each 12-month period you were eligible but didn't sign up. In most cases, you'll have to pay this penalty for as long as you have Part B. And the penalty increases the longer you go without Part B coverage. The Part D late enrollment penalty is an additional premium that must be paid for Part D coverage if at any time after your initial enrollment period is over, there is a period of 63 days or more in a row when you did not have Part D or other creditable prescription drug coverage.
